Generator junction box DEHNcube PV

Avoid surge damage, protect PV systems.

Protect your PV system and prevent costly surge damage and outages with the help of DEHNcube PV. This prewired system solution is available for 1 MPP, 2 MPP and 3 MPP applications and suitable for common inverter types in residential construction or the small business sector.

Your benefits at a glance:

Flexible connection possibilities
Whether push-in terminal or original MC4 connector – select the product versions that best suits your installation requirements.

Versatile application possibilities
DEHNcube is available for PV systems up to 1000 V, 1100 V and 1200 V of string voltage, as well as for one, two or three MPP inputs.

Quick and easy installation
Pre-assembly of all important components saves valuable time.

Quick wall mounting
The easily accessible mounting holes in the rear wall of the enclosure facilitate installation.

Easy selection – always the right product

Choose products to suit your individual requirements from our clearly organised product portfolio DEHNcube PV.

	Part No.	Type	MPP tracker / strings	Connection system
	900 975	Type 1 + 2	1 MPP 2 strings each	Screw connection / cable entry
	900 976	Type 1 + 2	2 MPP 2 strings each	Screw connection / cable entry
	900 978	Type 1 + 2	3 MPP 2 strings each	Screw connection / cable entry
	900 985	Type 1 + 2	1 MPP 1 string each	Original MC4 connector
	900 986	Type 1 + 2	2 MPP 1 string each	Original MC4 connector
	900 987	Type 1 + 2	2 MPP 2 strings each	Original MC4 connector
	900 988	Type 1 + 2	3 MPP 1 string each	Original MC4 connector
	900 913	Type 2	1 MPP 2 strings each	Screw connection / cable entry
	900 921	Type 2	2 MPP 1 string each	Screw connection / cable entry
	900 923	Type 2	2 MPP 2 strings each	Screw connection / cable entry
	900 911	Type 2	1 MPP 1 string each	Original MC4 connector
	900 924	Type 2	2 MPP 1 string each	Original MC4 connector
	900 931	Type 2	3 MPP 1 string each	Original MC4 connector

Whether for buildings with or without external lightning protection, separation distance maintained or not, with screw connection / cable entry or original MC4 connector: DEHN offers you the right solution, compactly summarised in the **selection guide "Generator junction boxes for photovoltaics"** at http://de.hn/c8UN1.
